Re: Clutch "The Rockets Bear"

Dear Sirs,

It is an honor to recommend Clutch "The Rockets Bear" for induction into the Mascot Hall of Fame. Clutch was introduced to Rockets fans in 1995 and has become a legend in the community.

Clutch is a mainstay at Rockets games revving fans with an arsenal of fan favorites. He "officiates" Sumo wrestling matches and thrills the crowd when he knocks over contestants. He turns up the volume when he rides his motorcycle on the court. He was the first mascot to incorporate the use of a Segway. He works the crowd thrilling young fans when he stops for pictures or signs autographs. He is an integral part of the Rockets experience.

Clutch is involved in the Houston community. He participates in numerous camps for youth. During Houston's hurricane relief efforts, he visited evacuees, helped distribute supplies and assisted with home construction. He takes his responsibility seriously and is a credit to himself, his team and the community.

I am a fan, a luxury suite holder (our suite is adjacent to the owner's suite), and have been a sponsor of the team in years past. I have seen the team play in numerous other cities and firmly believe that Clutch provides a superior experience for fans. Please accept my nomination of Clutch for induction into the Mascot Hall of Fame.

Cordially,

Roy Marsh
