

INDOOR SCAVENGER HUNT

THE BASKETBALL

The ball is the one of the only pieces of equipment needed to play basketball (besides the hoop).

Measuring 29.5 inches in circumference, the basketball has an inflatable rubber bladder, is wrapped in layers of fiber, and is covered with leather.

Traditionally, the ball is orange with black stripes that divide it in sections and make it easy to grip.

Players dribble the basketball down the court and score by shooting it into a hoop!

Can you find everyday objects that remind you of a basketball?

Time yourself as you check off the boxes on the list or race your family to see who can find all of the items the fastest!
